

Simulation and Analysis of the Energy Matrix Model – SAME

Installation procedure

1. IT requirements:

- Operative System: Windows 8 or Windows 10
- MS Office 2007 or higher (minimum Ms. Access and Ms. Excel)
- PDF document viewer.

2. Selecting the Right Installer:

	SAME-SETUP_32_bits	SAME-SETUP_64_bits
MS Office 2007	X	
MS Office 2010 32 bits	X	
MS Office 2010 64 bits		X
MS Office 2013	X	
MS Office 2016 or higher	Download 64-bit Access 2010 Engine https://www.microsoft.com/en-us/download/details.aspx?id=13255 and use 64-bit SAME installer	

3. Setup program:

To install, run the program SAME-SETUP_XX_bits\Debug\SAME-SETUP.MSI.

If after the installation, when executing SAME, a message appears indicating that the installed version is not correct, uninstall it (using the control panel) and try the other version of the installer.

To execute the SAME, make sure that in the regional configuration the point is selected as the decimal separator and the comma as the thousands separator, both in number format and in currency format.
