

II REGIONAL SUMMIT OF METHANE

LATIN AMERICA AND THE CARIBBEAN

AGENDA DAY 1 - JULY 23rd

Time	Activity
07:30 - 08:30	Registration and welcome
08:30 - 09:10	Opening remarks
09:10 - 09:50	Methane mitigation outlook from the energy sector in Peru Addressing the current situation of the country (inventory, commitments, progress) in the O&G sector and the mitigation perspective expected for the next 5 years, in order to meet its climate commitments.
09:50 - 10:10	From the G20 to COP 30 Vision of the COP30 Presidency on methane emission abatement and the energy sector.
10:10 - 10:30	Global Methane Tracker 2024 / 2025 Overview of methane emissions and the main findings of the Global Methane Tracker 2024 and 2025 progress for the global and regional context.
10:30 - 11:00	Coffee Break
11:00 - 12:30	Regulation Exploration of regulatory challenges for methane emission reduction and current experiences in developing regulatory frameworks.
12:30 - 14:00	Lunch
14:00 - 14:40	Climate transparency Pogress and challenges in climate transparency from the private sector, in compliance with international standards of reporting and monitoring, as well as the articulation with the government sector for the reporting, control and surveillance of their emissions and their incorporation into national GHG inventories.
14:40 - 15:30	Progress of the OEMLAC Presentation of the Observatory's progress since the first Summit: Publications made and progress of Low Emission Natural Gas (GNBE) certification
15:30 - 16:00	Coffee break
16:00 - 17:00	The private sector in climate action Exploring the initiatives and commitments of energy, oil and gas companies to reduce methane emissions, highlighting success stories and opportunities for public-private collaboration in Latin America and the Caribbean and progress in complying with requirements established by markets or governments at the international level in terms of methane emission reduction.
CLOSING DAY 1	

II REGIONAL SUMMIT OF METHANE

LATIN AMERICA AND THE CARIBBEAN

AGENDA DAY 2 - JULY 24rd

Time	Activity
07:30 - 08:30	Registration and welcome
08:30 - 09:30	Financing The panel will address the strategies used by the corporate sector to finance the implementation of its methane mitigation plans and the projection for the medium term (2025 – 2030).
09:30 - 10:30	Driving the Energy Transition with Biomethane Segment planned for discussion with experts regarding the general panorama, opportunities, challenges and success stories associated with the production and use of biomethane as an alternative for the decarbonization of the energy sector.
10:30 - 11:00	Coffee Break
11:00 - 12:30	Technology Exploration of the latest technological advances available in the market for the monitoring and geolocation of super-emitting events, leak detection and repair, emission measurement, capture and energy use.
Official closing of the 2nd Methane Summit to the public	
14:00 - 18:00	REGIONAL ROUNDTABLE (private event for the COEMLAC) To Move from Methane commition to actions
